I recently gained a First Class Honours Degree in Illustration from Norwich University College of the Arts. My work deals with social and political issues that stem from my love of old social realist dramas such as A Taste of Honey and Coronation Street. I love to work with mono print as I think it suits my somewhat dark subject matter, but I am always looking for new ways of working and subjects to explore. This comes from my love of image making in all its forms.

Applications

I have worked with Photoshop and MS Office. I have had some experience working with Indesign, Dreamweaver and Illustrator.
